

school & tertiary

2022 programs

our vision

To increase employment rates and work engagement in young people through the development of career management and self-development skills whilst enhancing mindsets.

our aim

In our school and tertiary programs, we aim to support not only young people in their career discovery and exploration but the teachers, career counsellors and parents who also support these individuals.

Through our programs and modules, our aim is:

- provide convenient career education resources for education institutes to support the precious time of educators and career departments.
- provide engaging and entertaining experiences for young people to be able to learn and develop skills to thrive in their careers.
- encourage career conversations at home that encourage exploration and curiosity.

our give back

We believe that it is our responsibility to contribute to communities and individuals who don't have the opportunities we are fortunate enough to have. For every program we run, **10% of the fee goes** back into a community cause as voted by our cohort.

career management workshops

interviews

key learnings

- general questions
- behavioural questions
- group interview questions
- course application questions
- applying for internships
- MMI questions

- teacher participant

digital career services

modules & podcasts

alumni podcasts

project turnaround

3-6 weeks

content ideas

- design
- engineering & STEM
- business & entrepreneurship
- arts & humanities
- trades
- creative & performing arts
- career stories

cost

\$350 + GST per episode

concept

We develop podcast episodes in partnership with your school alumni network by interviewing alumni who have interesting and meaningful career stories.

These recorded episodes act like personalised career resources for the school.

process

- pre-meet with alumni member
- record the interview
- edit & review
- upload

previous projects

MacRob - [Career Perspectives with Palladian](#)

"The whole school community has enjoyed listening and loved connecting back with alumni stories and experiences"
- teacher participant

"I have learnt how to effectively write up a pitch, which will help me in real-life situations such as applying for a job. It was very clear and easy to understand. I once thought that making a pitch was difficult, however, this learning module has proved me otherwise. With this, I can confidently make my own pitch."

- student participant
